

Passion Project Plan

This plan is your starting point for Assessment Task 2 - Passion Project. It helps you clarify what you will do, why it matters to you, and how you will show your learning. You will connect your project to what you discovered in Assessment Task 1, define your goal and outcome, and plan how you will take action, collect evidence, and use feedback. A strong plan sets you up for success by ensuring your project is purposeful, challenging, and clearly demonstrates your growth!

What is your idea (or ideas at this stage) for your Passion Project (based on the brainstorm, SWOT and EdChat analysis)??	
What is your background interest in these ideas? Why is this idea of interest to you? - What experiences, interests, or strengths connect to this idea? - How does this link to what you discovered about yourself in AT1?	
What do you think your final outcome or product will be, or what format will it take? (e.g. product, performance, event, portfolio, demonstration) - What will you actually do to achieve this? (be specific - not just what you will make) - What will this show about you as a learner and person?	
What will success look like for your project? - How will you know you have achieved your goal? - What would a strong outcome look like?	
What challenges might you face, and how might you respond? - What could go wrong or be difficult? - How might you adapt if things don't go to plan?	
What format are you planning for your journal? (e.g. slides, Miro Board, document, OneNote, video log) How will you organise and present your evidence of learning?	
What evidence will you collect to show your learning? (e.g. photos, drafts, screenshots, feedback, recordings) - How will you show: - your actions - your progress - your learning	
Who will you seek advice or feedback from during your project? (teachers, peers, family, community members) - When will you seek this feedback? - How will you use it to improve your work?	
Is there a professional or expert in this field you could connect with? How might you access their perspective (in person, email, online, etc.)?
